This screenshot shows a mobile application's login screen. At the top, a red error message says "Authentication failed.". Below it is a "User ID" field containing "user.73". Underneath is a "Password" field with a red border around its input area, containing ".....". To the right of the password field is a "Forgot Password" link. A large black "Sign In" button is centered below the password field. Below the button is a "Select Language" dropdown menu set to "English". At the bottom of the screen, there is a "Tango" watermark on the left and "Created with Tango.us" on the right.

A screenshot of a mobile application interface titled "Add Role". It features two input fields: one for "Password" and one for "Confirm Password", both with red asterisks indicating they are required. Below these fields is a large rectangular button with a black border containing the text "Add Role" in blue. This "Add Role" button is highlighted with a thick red rectangular outline. To the right of this button is another button labeled "Add Auto-Provisioned Roles". At the bottom of the screen, there is a footer bar with the "Tango" logo on the left and the text "Created with Tango.us" on the right.

The screenshot shows a user account management interface. At the top right is a search icon and a 'Save' button. Below the title 'User Account' is a section titled 'Membership from Role'. A dropdown menu labeled 'Roles' is open, and a search bar contains the text 'it secur'. An orange rectangle highlights the search bar and the resulting list of roles. The list includes several entries for 'IT Security Manager' and some for 'IT Security ManagerCopy Do Not Use', each with its corresponding role identifier. The bottom right corner of the interface has a watermark 'Tango' and 'Created with Tango.us'.

Tango

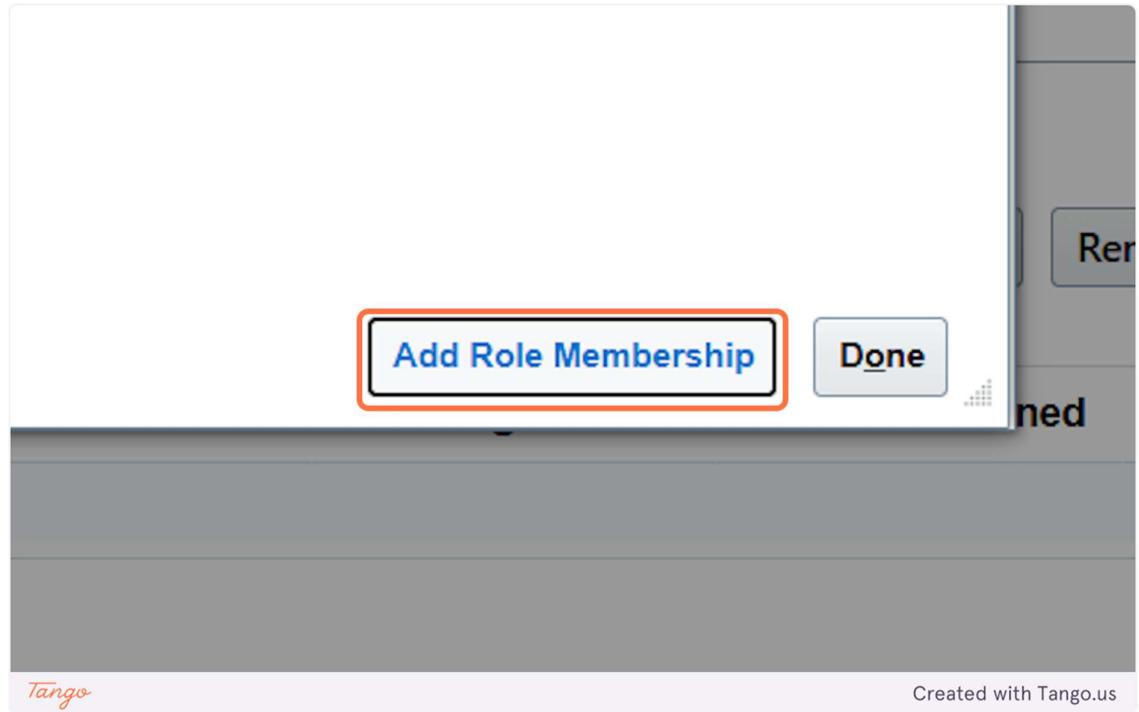

Created with Tango.us

The screenshot shows the 'vision' platform's 'Add User Account' screen. On the left is a sidebar with icons for Roles, Users, Analytics, Certificates, User Categories, Single Sign-On, API Authentication, and Administration. The main area has a heading 'Add User Account' and a 'Save and Close' button. A modal window titled 'Add Role Membership from Role' is open. It contains a search bar with 'Search' and 'Roles' dropdown, and a search input field containing 'IT Security Manager'. Below the search bar is a message 'Search Result Count : 0' and 'No data to display.' At the bottom of the modal are 'Add Role Membership' and 'Done' buttons. The bottom right corner of the interface has a watermark 'Tango' and 'Created with Tango.us'.

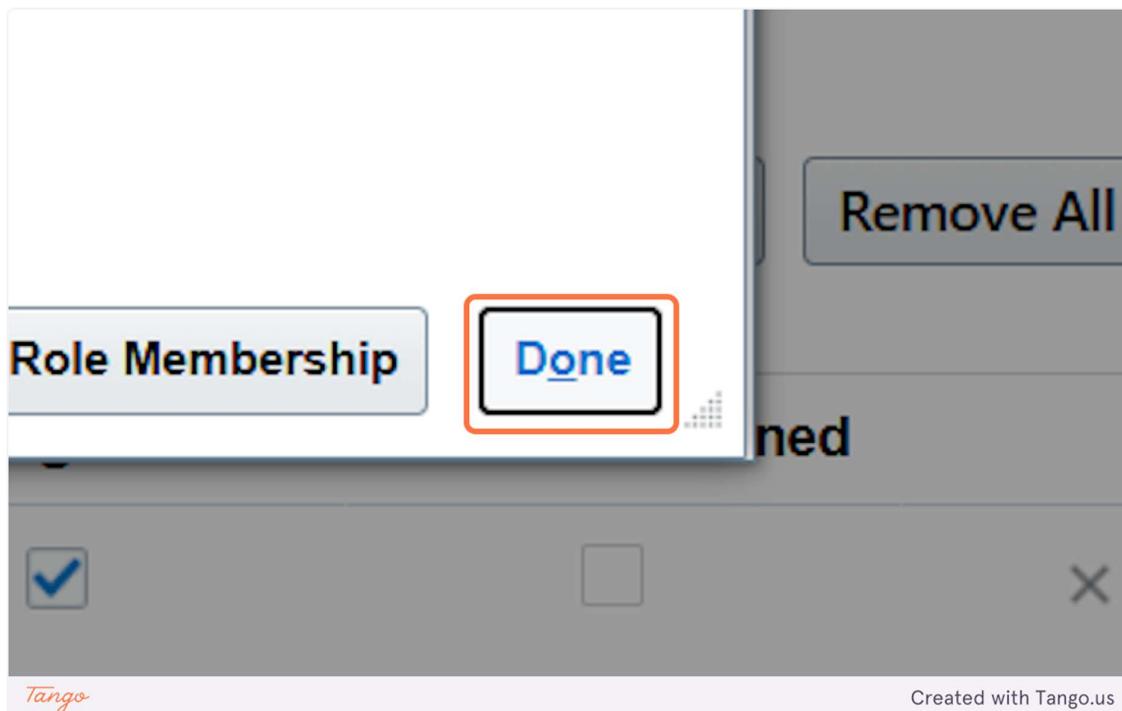

26. Click on Add Role Membership from Role...

27. Click on Add Role Membership

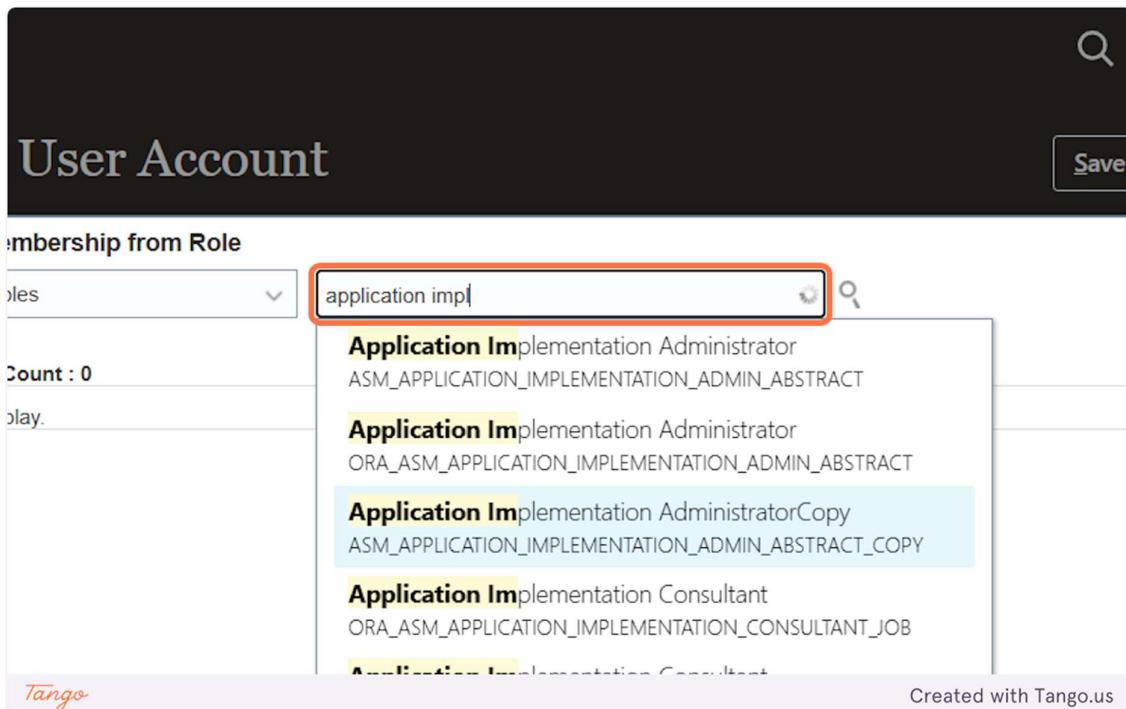

28. Click on Done

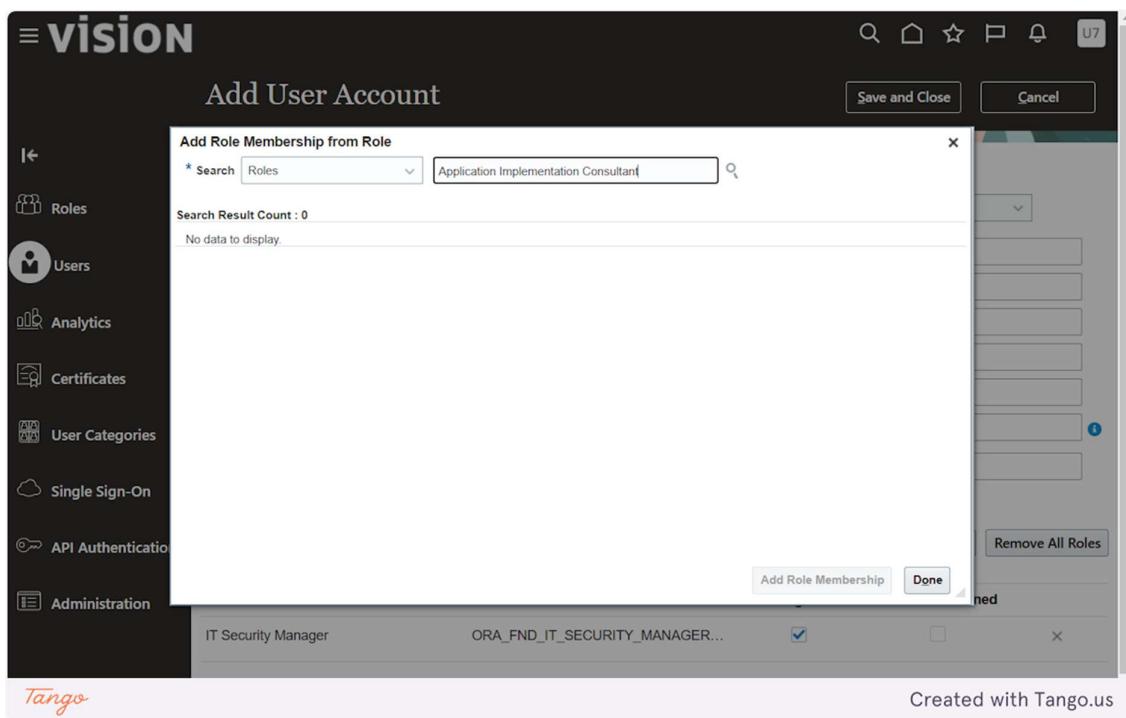

29. Click on Add Role

A screenshot of a web-based application's "Add Role" form. The form consists of several input fields and buttons. At the top, there are two password input fields: the first is labeled "* Password" and the second is labeled "* Confirm Password", both containing five gray dots indicating masked text. Below these is a large empty text area for role details. In the center, there are two prominent buttons: "Add Role" and "Add Auto-Provisioned Roles". The "Add Role" button is highlighted with a thick red rectangular outline. Further down, there is a table with three columns: "Assignable" and "Auto-Provisioned" (both in bold black font) and a third column whose text is partially cut off. Under the "Assignable" column, there is a row for the role "D_IT_SECURITY_MANAGER...". To the right of this row are two checkboxes: one is checked with a blue checkmark, and the other is empty. In the bottom left corner of the form, the word "Tango" is written in orange. In the bottom right corner, the text "Created with Tango.us" is visible.
