

Billing Offset Feature

Author: Aya Hussein

Overview

Billing Offset feature is used to adjust billing transactions by offsetting amounts between related billing entries. This functionality helps ensure accurate billing calculations and prevents duplicate revenue or invoice amounts from being recognized.

Step 1: Navigate to Revenue

From Contract Management, open "Revenue". This provides access to all revenue transactions and billing offset functions.

Figure 1: Contract Management – Revenue

Step 2: Open "Manage Billing Offset Balances"

From Revenue Overview page, under "Account and Close", click on "Manage Billing Offset Balances". This page displays Items Requiring Attention and Transactions with Billing Exceptions.

The screenshot shows the 'Revenue Overview - Manage Billing Offset Balances' page. The sidebar on the right contains the following navigation links:

- Manage Billing Transactions
- Manage Summary Revenue
- Manage Revenue Distribution
- Administer**
 - Manage Rate Schedules
 - Manage Burden Schedules
 - Manage Transfer Price Reports
 - Manage Transfer Price Settings
- Account and Close**
 - Create Accounting
 - Create Adjustment Journal
 - Review Journal Entries
 - Post Journal Entries to General Ledger
 - **Manage Billing Offset Balances**
 - Create Accounting Transactions
 - Manage Accounting Transactions
 - Account Analysis Report
 - Journal Entries Report
 - Accounting Period Close
 - Subledger Period Close
 - Sweep Transaction Accounts
 - Manage Accounting Periods

The main content area has a dark header with 'Overview' and a help icon. Below the header, there are sections for 'Items Requiring Attention', 'Transactions with Billing Exceptions', and 'Summary by Contract'. The 'Items Requiring Attention' section includes filters for 'Business Unit' and 'Billing Type', and date ranges for 'From Date' (5/17/26) and 'To Date' (6/17/26). The 'Transactions with Billing Exceptions' section has a 'Summary by Contract' link. The 'Summary by Contract' section has a 'Detach' link. Below these sections is a table with the following columns: 'Business Unit', 'Billing Type', 'Contract Number', 'Last Creation Date', 'Number of Transactions', and 'Unrecognized'. The table is currently empty, displaying 'No data to display.'
