Practices for Lesson:
Accounting Hub
Fundamentals Overview

Overview

There are no practices for this lesson.

**Practices for Lesson:
Enterprise Structures and
Ledgers Overview**

Overview

In these practices, you will be:

- Entering data in the rapid implementation spreadsheet.
- Uploading the Chart of Accounts file.
- Uploading the Financials Common Entities file.
- Completing the ledger configurations.
- Managing data access for your user.
- Opening your General Ledger periods.

Practice: Entering Data in the Rapid Implementation Spreadsheet

Overview

In this practice, you will enter data to create your chart of accounts, ledger, legal entity, and calendar, replacing XX with the number assigned by your instructor.

For class purposes, you are creating a scaled down chart of accounts. In the real world, your chart of accounts would be more comprehensive.

Assumptions

Sign in as your FASXX.Student user as assigned by the instructor.

Tasks

Note: You can use a predefined spreadsheet located on your remote desktop at **Local Drive (C: or D:) > labs > Accounting Hub >**

XLARapidImplementationForGeneralLedger.xlsm. Find and replace all the XX's with your number using the Workbook option. You may have to replace the XX on some of the worksheets manually. Also change the Fiscal Year Start Date to 01/01/YYYY (YYYY is current year). When done, proceed to **step 22**.

1. Navigate to: **My Enterprise > Setup and Maintenance > Tasks** panel tab > **Search**.
2. Enter: **Create Chart**.
3. Click **Search**.
4. Click on the **Create Chart of Accounts, Ledger, Legal Entities, and Business Units in Spreadsheet** link.
5. Select **Show all downloads**.
6. Open the file **RapidImplementationForGeneralLedger.xlsm**
7. Save the file to the **Desktop** and name it:
XXRapidImplementationForGeneralLedger.xlsm.
8. Click the **COA, Calendar, and Ledger** tab on the bottom of the spreadsheet.
9. Enter the following data or select from drop-down lists on available fields. Save often.

Field	Value
Name	XXLedger
Currency	USD
Period Frequency	Monthly
Adjusting Periods	Once at year end
Fiscal Year Start Date	01/01/YYYY where YYYY is the current year

*Segment	Segment Label	*Short Prompt	*Display Width
XXCompany	Primary Balancing Segment	CO	2
XXDepartment	Cost Center Segment	DEP	3
XXAccount	Natural Account Segment	ACCT	4
XXIntercompany	Intercompany Segment	IC	2

10. **Save.**
11. Click the **Add Segment Sheets** to add a worksheet for the cost center segment called **XXDepartment** and **XXIntercompany**.
12. **Save.**
13. Click the **Companies and Legal Entities** tab and enter:
14. In **Line 1**, enter **Parent 1: 99, Company Description: Total Companies**.
15. In **Line 2**, enter:

Column	Line 2
Child	01
Company Description	Mortgage Company
Name / Legal Entity	XXEZ Loans
Identifier	XX-1234567
Country	United States
Address Line	XX Main Str.
City	Atlanta
State	GA
County	Fulton
Postal Code	30306
Registration Number	XX-1234567
Reporting Unit Registration Number	XX-1234567

16. **Save.**

17. Click the **Natural Accounts** tab and enter:

Column	Value	Description	Account Type	Financial Category (Defaults)
Parent1	1000	Total Assets	Asset	
Child	1110	Cash	Asset - Cash	Cash
Child	1210	Loans Receivable – Fixed Rate	Asset	
Child	1220	Loans Receivable – Adjustable Rate	Asset	
Child	3110	Retained Earnings	Owner's Equity –Retained Earnings	Retained Earnings
Parent1	4000	Total Revenue	Revenue – Top Revenues Parent Account	Sales Revenue
Child	4110	Interest Income	Revenue	
Parent1	5000	Total Expense	Expense – Top Operating Expenses Parent Account	Other operating expenses
Child	5105	Salaries	Expense	

18. **Save.**

19. Click the **XXDepartment** tab and enter:

Column Name	Value	Description
Parent 1	ALL	Total Departments
Child	000	Balance Sheet

20. Click **Save**.
21. Click the **XXIntercompany** tab and enter:

Column Name	Value	Description
Parent 1	IC	Total Interco
Child	01	Interco

22. Click **Save**.
23. Return to the **COA, Calendar, and Ledger** tab.
24. Click **Step 1: Validate**.

Note: If any errors occur, correct them and validate again until all errors are fixed.
25. Click **Yes**.

Note: A new tab is created to preview Financial Report that the system can generate.

26. Return to the **COA, Calendar, and Ledger** tab.
27. Click the **Step 2: Generate Chart of Accounts File** button.
28. Save to the **Desktop** and name the file: **XXChartOfAccounts.zip**.
29. Click the **Step 3: Generate Ledger, LE, and BU File** button.
30. Save to the **Desktop** and name the file: **XXFinancialsCommonEntities.zip**.
31. Click **Save**.
32. **Close** the spreadsheet without saving.

Practice: Uploading the Chart of Accounts File

Overview

In this practice, you will be uploading the **Chart of Accounts** file created from your spreadsheet data in the previous activity. The application uses this upload to create the chart of accounts structure, instance, value sets, values, and business unit.

Assumptions

Sign in as your FASXX.Student user as assigned by the instructor.

Tasks

1. Navigate to: **My Enterprise > Setup and Maintenance > Tasks** panel tab > **Search**.
2. Enter **Upload Chart**.
3. Click **Search**.
4. Click on the **Upload Chart of Accounts** link.
5. Click **Data File: Choose File**.
6. Navigate to: **Desktop > XXChartOfAccounts.zip** file.
7. Click **Open**.
8. Click **Submit**.
9. Click **OK**.
10. If you are not taken immediately to the **Manage Scheduled Processes** page, then navigate to: **Tools > Scheduled Processes**.
11. Click **Refresh** until the **Status** is **Succeeded**.

Note: Be patient, it may take a few minutes to complete.

Name	Process ID	Status	Scheduled Time	Submission Time
Upload Enterprise Structures and Hierarchies	2055834	Wait	7/27/20 8:41 PM UTC	7/27/20 8:41 PM UTC
Update Aggregates	2055746	Wait	7/28/20 8:00 PM UTC	7/27/20 8:05 PM UTC
Update Aggregates for Entity Batch	2055743	Succeeded	7/27/20 8:05 PM UTC	7/27/20 8:05 PM UTC
Update Aggregates for Entity Batch	2055742	Succeeded	7/27/20 8:05 PM UTC	7/27/20 8:05 PM UTC

Note: If the upload completes with an error, click the **Name** of the process and then perform the following steps, otherwise proceed to **step 15**:

12. Click the name of the **Attachment** in the **Log and Output** section at the bottom of the window that opens under the list of processes.

Common errors are:

- Parent and child data not entered correctly.
 - Extra spaces after some of the values.
 - Incomplete data.
13. Double check the data and fix any errors in the spreadsheet.
 14. Re-create the files and upload again.
 15. Click **Done** twice.

Practice: Uploading the Financials Common Entities File.

Overview

In this practice, you will be uploading the ledger and legal entity from the financials common entities file created from the rapid implementation spreadsheet.

Assumptions

Sign in as your FASXX.Student user as assigned by the instructor.

Tasks

1. Navigate to: **My Enterprise > Setup and Maintenance > Tasks** panel tab > **Search**.
2. Enter: **Upload Ledger**.
3. Click **Search**.
4. Click on the **Upload Ledger, Legal Entities, and Business Units** link.
5. Click **Data File: Browse**.
6. Navigate to: **Desktop > XXFinancialsCommonEntities.zip** file.
7. Click **Open**.
8. Click **Submit**.
9. Click **OK**.
10. If you are not taken immediately to the Manage Scheduled Processes page, then navigate to: **Tools > Scheduled Processes**.
11. Verify that the process completed without errors. Status should be **Succeeded**.
Note: Please be patient, these process may take a while to complete. If your spreadsheet completes with an error, click the **Name** of the process and then perform the following steps, otherwise proceed to **step 15**:
12. Click the name of the **Attachment** in the **Log and Output** section at the bottom of the window that opens under the list of processes.

Common errors are:

- Parent and child data not entered correctly.
- Extra spaces after some of the values.
- Incomplete data.

13. Double check the data and fix any errors in the spreadsheet.
14. Re-create the files and upload again.
15. Click **Done** twice.

Practice: Completing the Ledger Configurations

Overview

In this practice, you will be:

- Reviewing and specifying your ledger options for your primary ledger.
- Reviewing and submitting the accounting configuration to the cube.

Assumptions

Sign in as your FASXX.Student user as assigned by the instructor.

Tasks

Reviewing and Specifying Your Ledger Options

1. Navigate to: **My Enterprise > Setup and Maintenance > Setup: Fusion Accounting Hub > General Ledger > Specify Ledger Options.**

Note: There are two **Specify Ledger Options** tasks, you must use only the first.

2. Click the **Select...** link in the **Scope** column.
3. Select the **Specify Ledger Options** radio button.
4. In the **Primary Ledger** field, select **Select and Add**.
5. Click **Apply and Go to Task**.
6. Select your **XXLedger US** from the list.
7. Scroll to and click **Save and Close**.
8. Accept or select:

Section	Option	Value or Setting
Accounting Calendar	First Opened Period	Jan-YY (YY = Current Year)
	Number of Future Enterable Periods	2
Subledger Accounting	Accounting Method	Standard Accrual
	Journal Language	American English
Period Close	Retained Earnings Account	01-000-3110-01

9. Leave all other options as is.

Note: For more details on the **Ledger Options**, you can take the **Oracle Fusion Cloud Financials: Enterprise Structures and General Ledger Implementation** course.

10. Click **Save and Close**.

Performing the Review and Submit Accounting Configuration Process

11. Navigate to: **My Enterprise > Setup and Maintenance > Setup: Financials > General Ledger > Review and Submit Accounting Configuration.**

vision

Review and Submit Accounting Configuration: 01Ledger US

12. Highlight your **XXLedger US** and click **Submit**.
13. Click **OK**.
14. Navigate to: **Tools > Scheduled Process**. Refresh until the status becomes **Succeeded**.

Practice: Managing Data Access for Your User

Overview

In this practice, you will be giving data access to your ledger for the General Accountant and General Accounting Manager job roles.

Assumptions

Sign in as your FASXX.Student user as assigned by the instructor.

Tasks

Authorizing Data Access of the New Job Role to Your Data Access Set

1. Navigate to: **My Enterprise > Setup and Maintenance > Setup: Fusion Accounting Hub > Users and Security > Show: All Tasks > Manage Data Access for Users.**
2. Click **Create**.
3. Select:

Field	Value
User Name	FASXX.Student
Role	General Accountant
Security Context	Data Access Set
Security Context Value	XXLedger US

4. Click **Add Row**.

5. Select:

Field	Value
User Name	FASXX.Student
Role	General Accounting Manager
Security Context	Data Access Set
Security Context Value	XXLedger US

Practice: Opening your General Ledger Periods

Overview

In this practice, you will be opening the current period for your primary ledger.

Assumptions

Sign in as your FASXX.Student user as assigned by the instructor.

Tasks

1. Navigate to: **General Accounting > Period Close**.
2. Select your **XXLedger US** Data Access Set.

Note: If you don't get the option to select your Data Access Set, click the **Change** link next to **Data Access Set** and select your **XXLedger US**.

3. Click **OK**.

Opening the First Period for Your Primary Ledger.

4. Click the **General Ledger (Never Opened)** link.
5. Click **OK**.
6. Click **Yes**.

- Click **Refresh** until the periods are listed.

- Click **Refresh** until the current period is in the **Open** status.
- Click **Done**.

Practices for Lesson:
Accounting Transformation
Configuration

Overview

In these practices, you will be:

- Registering a source system.
- Creating a mapping set.
- Creating account rules.
- Creating a custom formula.
- Creating a description rule.
- Creating a supporting reference.
- Creating a journal line rule.
- Creating a journal entry rule set.
- Creating a subledger accounting method.
- Uploading transaction data from a spreadsheet.
- Drilling down from journals in GL to view subledger journal entries.

The goal of these practices is to create journal entries from an external personal loan mortgage system. We will map the type of loan to the Loan Receivables accounts. This ensures that the correct Loan Receivables account is accounted for loan origination fees.

Practice: Registering a Source System

Overview

In this practice, you will be:

- Downloading the spreadsheet template.
- Populating the spreadsheet template.
- Validating the spreadsheet content.
- Generating a .zip file.
- Uploading the .zip file.
- Verifying that the source system was created.

Assumptions

Sign in as your FASXX.Student user as assigned by the instructor.

Tasks

Downloading the Spreadsheet Template

1. Navigate to: **My Enterprise > Setup and Maintenance > Setup: Fusion Accounting Hub > Accounting Transformation > Create Subledger Application Setups in Spreadsheet > Download Setup Template.**
2. Select **Open File.**

3. Click **Save**.
4. Click **OK**.
5. Click **Desktop**.
6. Name the file: **XlaSourceSystemSetupXX.slxm**.
7. Click **Save**.

Note: The name must begin with **Xla** so your **XX** student number needs to be at the end.

Populating, Validating, and Generating the Spreadsheet Template

8. Navigate to: **File Explorer > Local Drive (C: or D:) > labs > Accounting Hub**.
9. Open the **XlaSourceSystemSetup.xlsm** file.
10. Copy the data from each tab and paste to the newly downloaded spreadsheet.
Note: You cannot copy and paste the data in the shaded fields. They are already included in the downloaded spreadsheet.
11. Return to the **Source System** tab on your spreadsheet **XlaSourceSystemSetupXX.slxm**. Replace all the **XXs** (four of them) with your number on the **Source System** and **Line Information** worksheets.
12. Click the **Source System** sheet tab.

1		
2	Source System Transactions	
3		
4	*Name	*Short Name
5	03Personal Loan Mortgages	03PER_LOAN_MORG
6		
7		
8	Transaction Types	
9	Overview	
10	List the types of transactions from the source system that may need accounting.	
11	Examples: creating invoices, recording receiving or sending of payments, adjusting	
12	orders or customer balances.	
13	Technical information	
14	1. Short names are used as column names for the objects in the Accounting Hub Cloud	
15	system, and are limited to alphanumeric characters and underscores.	
16	2. The source system name is used as the subledger application and event class	
17		
18

3				
4	Instructions			
5	List types of transaction information that can have more than one value per transaction, such as an order or invoice line item amount.			
6				
7				
8	Mandatory source information			
9	TRANSACTION_NUMBER links transaction and line information.			
10	DEFAULT_AMOUNT and DEFAULT_CURRENCY hold transaction amount and currency values for use in accounting. When these			
11	two sources are removed and replaced with other similar sources to hold transaction amount and currency values, you must			
12	manually map the related accounting attributes with the sources from the user interface.			
13				
14	List of Sources			
15				
16	*Name	*Short Name	*Type	Chart of Accounts Value?
17	Transaction Number	TRANSACTION_NUMBER	Text	
18	Default Amount	DEFAULT_AMOUNT	Number	
19	Default Currency	DEFAULT_CURRENCY	Text	
20	03Loan Rate	LOAN_RATE03	Number	
21				

IMPORTANT Note: You need this for a subsequent practice that fails validation if the **Loan Rate** source **Name** and **Short name** are not unique to each student.

14. Click on the **Source System** tab.
15. Click **Validate**.
16. Click **OK**.
17. Click **Save**.

18. Click **Generate ZIP**.

Note: This creates a zip file called **XlaSourceSystemSetupXX.Today's date and time.zip** on your desktop.

19. Click **OK**.
20. Close both Spreadsheets.

Uploading the .zip File

21. Return to the **Create Subledger Application Setups in Spreadsheet** page.
22. Click **Upload Setup File**.
23. Click **Browse**.
24. Navigate to: **Desktop > XlaSourceSystemSetupXX.Today's date and time.zip** file.
25. Click **Open**.
26. Click **Upload**.

Note: Please be patient, this may take a few minutes. If your upload is successful, you should receive a confirmation message.

27. Click **OK**.
28. Click **Done**.

Verifying that the Source System Was Created

29. Navigate to: **My Enterprise > Setup and Maintenance > Setup: Fusion Accounting Hub > Accounting Transformation > Manage Subledger Application**.
30. On the **Manage Subledger Application** row, click **Select...**
31. Accept the **Manage Subledger Application** selection.
32. In the **Subledger Application Setup** list, select **Select and Add**.
33. Click **Apply and Go to Task**.

34. Click on your **XXPersonal Loan Mortgages** row.

The screenshot shows a window titled "Select and Add: Subledger Application Setup". Inside, there's a header "Select Subledger Application" with a "Done" button. Below the header, there's a "View" dropdown and a "Freeze" button. A search bar is present. The main area is a list of subledger applications. The first item, "03Personal Loan Mortgages", is selected and highlighted in blue. Other items in the list include "AHC Billing", "AHC Elec Med Record Sys", "AHC Endowment Donations", "AHC Insurance", "AHC Life Insurance", "AHC Loan", "Assets", "Cash Management", and "Channel Revenue Management". At the bottom right, there are two buttons: "Save and Close" and "Cancel".

Subledger Application
03Personal Loan Mortgages
AHC Billing
AHC Elec Med Record Sys
AHC Endowment Donations
AHC Insurance
AHC Life Insurance
AHC Loan
Assets
Cash Management
Channel Revenue Management

35. Click **Save and Close**.

36. In the **Event Model** section, expand **XXPersonal Loan Mortgages** twice.

The screenshot shows the 'Manage Subledger Application' window in Oracle Vision. The title bar includes the 'vision' logo, navigation icons, and the user 'FAS03 Studer'. The main title is 'Manage Subledger Application: 03Personal Loan Mort...'. On the right, there are buttons for 'Download Template', 'Save', 'Save and Close', and 'Cancel'. Below these, it says 'Last Saved 11/9/20 7:58 PM'.

The main content area displays the following fields:

- Subledger Application:** 03Personal Loan Mortgages
- Short Name:** 03PER_LOAN_MORG
- Description:** 03Personal Loan Mortgages (text area)
- Journal Source:** 03Personal Loan Mortgages
- Control Account Type:** None

On the right side, there are three checkboxes:

- ☐ Support multiple valuation methods
- ☒ Calculate reporting currency amounts
- ☐ Automatically delete invalid transactions

Below the fields is the 'Event Model' section with a help icon. It has a 'View' dropdown and a right-pointing arrow. A tree view is displayed, showing the hierarchy:

- 03Personal Loan Mortgages
 - 03Personal Loan Mortgages
 - LOAN CHARGE OFF
 - LOAN INTEREST ACCRUAL
 - LOAN INTEREST ADJUSTED
 - LOAN LATE PAYMENT
 - LOAN ORIGINATION
 - LOAN SCHEDULED PAYMENT

37. Verify your event model app
38. Click **Cancel**.

Practice: Creating a Mapping Set

Overview

In this practice, you will be creating a mapping set for your XXPersonal Loan Mortgages subledger.

Assumptions

Sign in as your FASXX.Student user as assigned by the instructor.

Tasks

1. Navigate to: **My Enterprise > Setup and Maintenance > Setup: Fusion Accounting Hub > Accounting Transformation > Configure Accounting Rules.**
2. Select your subledger application, **XXPersonal Loan Mortgages**.

3. Navigate to the **6. Mapping Sets** train stop.
4. Click **Create**.
5. Enter:

Field	Value
Name	XXLoan Receivable Accounts
Short Name	XXLOAN_REC
Description	Mapping to derive Loan Receivable accounts
Output Type	Segment

6. In the **Input Sources** section, click **Actions > Select and Add**.
7. For **Subledger Application**, accept **XXPersonal Loan Mortgages**.
8. Click **Search**.
9. Select **Loan Type**.

Search and Select: Input Sources

18. Remain in **Configure Accounting Rules** page.

Practice: Creating Account Rules

Overview

In this practice, you will be

- Creating an account rule for the Loan Receivable accounts.
- Creating an account rule for the Cash account.

Assumptions

Sign in as your FASXX.Student user as assigned by the instructor.

Tasks

Creating an Account Rule with a Mapping Set

1. If you are in the **Configure Accounting Rules** page, go to step 3 below. If not, navigate to: **My Enterprise > Setup and Maintenance > Setup: Fusion Accounting Hub > Accounting Transformation > Configure Accounting Rules**.
2. Select your **Subledger Application**, **XXPersonal Loan Mortgages**.
3. Click the **5. Account Rules** train stop.
4. Click **Create**.
5. Enter:

Field	Value
Name	XXLoan Receivable Segment Rule
Short Name	XXLOAN_REC_SEG
Description	Loan Receivable segment rule with mapping set.
Chart of Accounts	XXLedger
Rule Type	Segment
Segment	XXAccount

6. In the **Rules** section click **Add Row**.
7. Select **Value Type: Mapping set**.

8. Select **Value: XXLLoan Receivable Accounts**.

Configure Accounting Rules: Create Account Rule

Name: 01Loan Receivable Segment Rule

Short Name: 01LOAN_REC_SEG

Description: Loan Receivable segment rule with mapping set

Chart of Accounts: 01Ledgeer

Rules

Reorder rules to change priority.

Prio	Value Type	Value
1	Mapping set	01Loan Receivable Accounts

Creating a Condition

9. Place your cursor in the **Rule 1: Conditions** section text box, and remove any existing text.
10. Select **()**. Place your cursor between the brackets.
11. Click **Source**.
12. For **Subledger Application**, select **XXPersonal Loan Mortgages**.
13. Click the **Search** icon.
14. Select **XXPersonal Loan Mortgages: Refinance Type**.
15. Click **OK**.
16. Place cursor before the last bracket **)**.
17. Select **Operator: Equal to (=)**.
18. Place cursor after the **=**.

19. Enter **None**.

20. Click **Validate**.
Note: The validation step validates the Condition, not the rule.
21. Click **OK**.
22. Click **Save and Create Another**.

Creating Account Rules with a Constant

23. Enter:

Field	Value
Name	XXLoan Receivable Account Rule
Short Name	XXLOAN_REC_ACCT
Description	Loan Receivable account rule as a constant.
Chart of Accounts	XXLedger
Rule Type	Account combination

24. In the **Rules** section click **Add Row**.
25. Select **Value Type: Constant**.
26. Select **Value: 01-000-1210-01**.
27. Click **Save and Create Another**.

28. Enter:

Field	Value
Name	XXCash Account
Short Name	XXCASH_ACCT
Description	Cash Account
Chart of Accounts	XXLedger
Rule Type	Account combination

29. In the **Rules** section click **Add Row**.
30. Select **Value Type: Constant**.
31. Select **Value: 01-000-1110-01**.
32. Click **Save**.
33. Remain in the **Configure Accounting Rules** page.

Practice: Creating a User-Defined Formula

Overview

In this practice, you will be creating a user-defined formula to use on a description rule.

Assumptions

Sign in as your FASXX.Student user as assigned by the instructor.

Tasks

1. Click the **8. User-Defined Formula** train stop.
2. Click **Create**.
3. Enter:

Field	Value
Name	XXDescription Adj Rate Formula
Short Name	XXDESC_FORMULA
Description	Formula to use on a description rule.
Data Type	Number
Event Class	XXPersonal Loan Mortgages

4. In the **Expression** text box, click **Insert Function**.
5. Select **Type: Numeric**.
6. Click **Search**.
7. Select **Round**.
8. Click **OK**.
9. Remove all the words inside the brackets. Place your cursor inside the brackets.
10. Click **Source**.
11. For **Subledger Application**, select: **XXPersonal Loan Mortgages**.
12. Click **Search**.
13. Select **Name: XXLoan Rate**.
14. Click **OK**.

15. Complete the formulas as: **Round(("XXLoan Rate" + 0.3),2)**

Configure Accounting Rules: Manage User-Defined Formulas: 01Personal Loan Mortgages

Name	Short Name	Description	Data Type	Event Class	Status	Created By
Option Adj Rate Formula	001DESC_FORUMULA	Formula to use on a description rule	Number	01Personal L	Inactive	FAS01 STUDENT

Expression

Insert

Round(("XXLoan Rate" + 0.3),2)

16. Click **Validate**.

17. Click **OK**.

18. Click **Save**.

19. Click **Actions menu > Change Status > Activate**.

20. Click **Save**.

Practice: Creating a Description Rule

Overview

In this practice, you will be creating a description rule with two priorities. One for the adjustable rate using the adjustable rate formula and the other for the fixed rate.

Assumptions

Sign in as your FASXX.Student user as assigned by the instructor.

Tasks

1. Click the **7. Description Rule** train stop.
2. Click **Create**.
3. Enter:

Field	Value
Name	XXRate Type Description
Short Name	XXRATE_TYPE_DESC

Creating Priority 1

4. In the **Rules** section click **Create**.
5. In the **Description Details** section, type **Mortgage Owner:** and add a space.
6. Click **Source**.
7. For **Subledger Application**, select **XXPersonal Loan Mortgages**.
8. Click **Search**.
9. Select **Mortgage Owner**.
10. Click **OK**.
11. Place cursor at the end of the text in the **Description Details** section.
12. Type a **comma** then a **space** and **Loan Officer:** and add a space.
13. Click **Source**.
14. Select **Loan Officer**.
15. Click **OK**.
16. Place cursor at the end of the text in the **Description Details** section.
17. Type a **comma** then a **space** and **Loan Type:** and add a space.
18. Click **Source**.
19. Select **Loan Type**.
20. Click **OK**.
21. Place cursor at the end of the text in the **Description Details** section.

22. Type a **comma** then a **space** and **Adjusted Rate:** and add a space.
23. Click **Source**.
24. Select **XXDescription Adj Rate Formula**.
25. Click **OK**.

Create Description Rule [X]

Enter a constant value and source directly, or select a source.

Insert **Source**

Description Details

Mortgage Owner: "Mortgage Owner", Loan Officer: "Loan Officer(01PER_LOAN_MORG,Standard)", Loan Type: "Loan Type(01PER_LOAN_MORG,Standard)", Adjusted Rate: "01Description Adj Rate Formula"

Save and Close **Cancel**

26. Click **Save and Close**.

Creating a Condition for Priority 1

27. In the **Rule 1: Condition** section, remove the **No conditions found** text.
28. Select **Source**.
29. For **Subledger Application**, select **XXPersonal Loan Mortgages**.
30. Click **Search**.
31. Select **Loan Type**.
32. Click **OK**.
33. Place your cursor at the end of the text and select **Operator: Equal TO (=)**
34. Type **Adjustable Rate**
35. Click **Validate**.
36. Click **OK**.
37. Click **Save**.

Creating Priority 2

38. In the **Rules** section click **Create**.
39. In the **Description Details** section, type **Mortgage Owner:** and add a space.
40. Click **Source**.

41. Select **XXPersonal Loan Mortgages**.
42. Click **Search**.
43. Select **Mortgage Owner**.
44. Click **OK**.
45. Place cursor at the end of the text in the **Description Details** section.
46. Type a **comma** then a **space** and **Loan Officer:** and add a space.
47. Click **Source**.
48. Select **Loan Officer**.
49. Click **OK**.
50. Place cursor at the end of the text in the **Description Details** section.
51. Type a **comma** then a **space** and **Fixed Rate:** and add a space.
52. Click **Source**.
53. Select **XXLoan Rate**.
54. Click **OK**.

Create Description Rule [X]

Enter a constant value and source directly, or select a source.

Insert **Source**

Description Details

Mortgage Owner: "Mortgage Owner", Loan Officer: "Loan Officer(01PER_LOAN_MORG,Standard)", Fixed Rate: "01Loan Rate"

Save and Close **Cancel**

55. Click **Save and Close**.

Creating a Condition for Priority 2 Rule 2: Conditions

56. In the **Priority 2 Rule 2: Conditions** section, remove **No conditions found**.
57. Select **Source**.
58. For **Subledger Application**, select **XXPersonal Loan Mortgages**.
59. Click **Search**.
60. Select **Loan Type**.

61. Click **OK**.
62. Place your cursor at the end of the input and select **Operator: Equal TO (=)**
63. Type **Fixed Rate**
64. Click **Validate**.
65. Click **OK**.

11. In the **Debit, Loan Receivable: Supporting References** section, click **Add Row**.
12. Select **XXLoan Officer**.
13. Click **Save**.
14. Remain in the **Configure Accounting Rules** page.

Practice: Creating a Subledger Accounting Method

Overview

In this practice you will be:

- Creating a subledger accounting method for your ledger.
- Assigning your new accounting method to your ledger.

Assumptions

Sign in as your FASXX.Student user as assigned by the instructor.

Tasks

1. Click the **2. Accounting Methods** train stop.
2. Click **Create**.
3. Enter:

Field	Value
Name	XXStandard Accrual
Short Name	XXSTANDARD_ACCRUAL
Description	Standard accrual method for Personal Loan Mortgages.

11. Click **Done**.

Assigning Your New Accounting Method to Your Ledger

12. Navigate to: **My Enterprise > Setup and Maintenance > Setup: Fusion Accounting Hub > General Ledger > Specify Ledger Options**.

Setting Scope

Note: If the scope is not **XXLedger US** complete steps 13 – 19. If scope is set, proceed to step 20.

13. Click on the **Select...** link in the **Scope** column for the **Specify Ledger Options** task.
14. Select the **Specify Ledger Options** radio button.
15. Select the **Primary Ledger** drop down list.
16. Select the **Select and Add** option.
17. Click **Apply and Go to Task**.
18. Select the row header for **XXLedger US**.
19. Click **Save and Close**
20. In the **Subledger Accounting** section, select your **XXStandard Accrual** accounting method.
21. Click **Save and Close**.

Practice: Uploading Transaction Data from a Spreadsheet

Overview

In this practice, you will be:

- Downloading and extracting a transaction .zip file.
- Entering data in the transaction spreadsheets.
- Zipping the completed transaction spreadsheets.
- Uploading the transaction .zip file in Draft mode.

Assumptions

Sign in as your FASXX.Student as assigned by your instructor.

Prerequisite

Opt In to Flexible Configuration of Accounting Hub Cloud Service End to End Flow and Transaction Reversal in Accounting Hub

1. Navigate to: **My Enterprise > Offerings > Fusion Accounting Hub > Opt In Features.**
2. On the **Fusion Accounting Hub** row, click the **Features** icon.

3. On the **Edit Features: Fusion Accounting Hub** page, enable:
 - **Flexible Configuration of Accounting Hub Cloud Service End to End Flow**
 - **Transaction Reversal in Accounting Hub**

4. Click **Done** twice.

Tasks

Downloading and Extracting a Transaction .zip File

5. Navigate to: **My Enterprise > Setup and Maintenance > Setup: Fusion Accounting Hub > Accounting Transformation > Manage Subledger Application.**

Setting Scope

Note: If the scope is not **XXPersonal Loan Mortgages** complete steps a – g. If the scope is set, select the **Manage Subledger Application** task and proceed to step 6.

- a. Click on the **Select...** link in the **Scope** column for the **Manage Subledger Application** task.
- b. Select the **Manage Subledger Application** radio button.
- c. Select the **Subledger Application Setup** drop down list.
- d. Select the **Select and Add** option.
- e. Click **Apply and Go to Task**.
- f. Select the row header for **XXPersonal Loan Mortgages**.
- g. Click **Save and Close**.

Download Template and Enter Data

6. On the **Manage Subledger Application: XXPersonal Loan Mortgages** page, ensure the following options are enabled:
 - **Automatically delete invalid transactions**
7. Click **Download Template**.
8. Click **Show in Folder**.

Note: The file is saved in **Downloads** folder.
9. Navigate to: **File Explorer > Quick Access > Downloads**.
10. Right click on the **XlaTransactionUploadTemplate.zip**
11. Select **7-Zip > Extract files**.

12. Add your **XX** to the end of the folder name to make it **XlaTransactionUploadTemplateXX**.

13. Click **OK**.
14. Open the **XlaTransactionUploadTemplateXX** folder.
15. Open the **XlaTrxH.csv** file.
16. Expand all the columns to see the header details.

Note: To save time and reduce errors, we have provided two predefined csv files for you to copy and paste the data into your two csv files.

17. Navigate to the **File Explorer > Local Drive (C: or D:) > labs > Accounting Hub** folder.
18. Open the **XlaTrxHOriginal.csv** file.
19. Copy the three data rows and paste into your **XlaTrxH.csv** spreadsheet.
20. In the **LEDGER_NAME** column, replace with **XX** with your number.

21. Change the all the date columns following the table:

Column	Date
TRANSACTION_DATE	Today
LOAN_SCHEDULED_PAYMENT_DATE	1 Month from today
LOAN_MATURITY_DATE	10 years from today
LOAN_ORIGINATION_DATE	Today

	A	B	C	D	E	F	G	H	I	J	K	L	M	N	O	P
1	TRANSACTION_NUMBER	EVENT_TY	LEDGER_N	TRANSACTION_DATE	TRANSACTION_DATE	LOAN_TY	MORTGAGE	LOAN_OFFICER	REFINANCING	CHARACTER	CHARACTER	CHARACTER	CHARACTER	CHARACTER	CHARACTER	CHARACTER
2	FR-004	LOAN_ORI	03Ledger	3/1/2023	N	Fixed Rate	Kimberly	John Nile	None							
3	AR-004	LOAN_ORI	03Ledger	3/1/2023	N	Adjustable	Douglas K	John Nile	None							
4	FR-005	LOAN_ORI	03Ledger	3/1/2023	N	Fixed Rate	Nancy Lan	Patric Lee	None							
5																
6																
7																

Formatting the Date Columns

Note: Because this is a csv file, many of the formatting options do not save. The date format is one of those. For the upload, the date format needs to be **yyyy-mm-dd**.

22. Highlight the three cells under the **TRANSACTION_DATE** Column.
23. Right click and select **Format Cells**.
24. Under the **Number** tab, select **Custom**.

25. In the **Type** field, enter: **yyyy-mm-dd**.

26. Click **OK**.

27. Repeat the formatting steps for these three columns:

- **LOAN_SCHEDULED_PAYMENT_DATE**
- **LOAN_MATURITY_DATE**
- **LOAN_ORIGINATION_DATE**

28. Close the spreadsheet.
29. Click **Save**.
30. Click **Yes**.
31. Close the **XlaTrxHOriginal.csv** file.
32. Navigate to: **Favorites > Downloads > XlaTransactionUploadTemplateXX**.
33. Open the **XlaTrxL.csv** file.
34. Expand all the columns to see the header details.
35. Navigate to the **File Explorer > Local Drive (C: or D:) > labs > Accounting Hub** folder.
36. Open the **XlaTrxLOriginal.csv** file.
37. Copy the three data rows and paste into your **XlaTrxL.csv** spreadsheet.
38. Close the spreadsheet.
39. Click **Save**.
40. Click **Yes**.
41. Close the **XlaTrxLOriginal.csv** file.
42. Navigate to: **Favorites > Downloads > XlaTransactionUploadTemplateXX**.
43. Select all three files:
 - **XlaTrxH.csv**
 - **XlaTrxL.csv**
 - **Metadata_XXPER_LOAN_MORG**
44. Right click and select **7-Zip > Add to "XlaTransactionUploadTemplateXX.zip"**

Uploading the .zip File

45. Navigate to: **Tools > File Import and Export**.
46. In the **Search Results** section, click **Upload**.

Practice: Viewing the Draft Journals and Posting the Journals in Final Status

Overview

In this practice, you will be:

- Viewing the draft journals.
- Posting the journals in final status.
- Drilling down from a journal in GL to view your subledger journal entries.

Assumptions

Sign in as your FASXX.Student user as assigned by the instructor.

Tasks

Viewing the Draft Journals

1. Navigate to: **General Accounting > Journals > Tasks** panel tab > **Subledger Accounting > Review Subledger Journals**.
2. Select:

Field	Value
Leger	XXLedger US
Journals Source	XXPersonal Loan Mortgages
Status	Draft

3. Click **Search**.
4. Review the journals.

Data Access Set: 04Ledger US [\[Change\]](#)

Review Journal Entries Done

15. Click on the **Journal** link.

16. Click on **Debit** amount link.

The screenshot shows the Oracle Edit Journal interface. At the top, there's a header with the text "Data Access Set: 04Ledger US" and "Edit Journal". Below the header, there's a section for "Journal Batch: 04Loan 04Personal Loan Mortgages A 4617008000001 4617009 N". This section contains details like Journal Batch, Description, Source, Approval Status, Funds Status, Batch Status, and Completion Status. Below this, there's a section for "Journal: May-22 04Personal Loan Mortgages". This section contains details like Journal, Description, Currency, Conversion Date, Conversion Rate Type, Conversion Rate, and Inverse Conversion Rate. At the bottom, there's a section for "Journal Lines". This section contains a table with columns: Line, Account, Entered (USD) (Debit and Credit), Reconciliation Status, Reconciliation Group, and Description. The table contains three rows of data.

Line	Account	Entered (USD) Debit	Entered (USD) Credit	Reconciliation Status	Reconciliation Group	Description
1	01-000-1220-01	300,000.00		Unreconciled		Journal Import Created
2	01-000-1110-01		550,000.00	Unreconciled		Journal Import Created
3	01-000-1210-01	250,000.00		Unreconciled		Journal Import Created

17. Review the subledger journal.

Note: The **Line Description** has the adjustable rate calculated.

18. Click **View Transaction**.

19. Click **Done**.

20. Click **View Supporting Reference**.
