

Here are the summarized **notes on when to run the Multi-Period Accounting (MPA) process in Oracle Fusion Payables**:

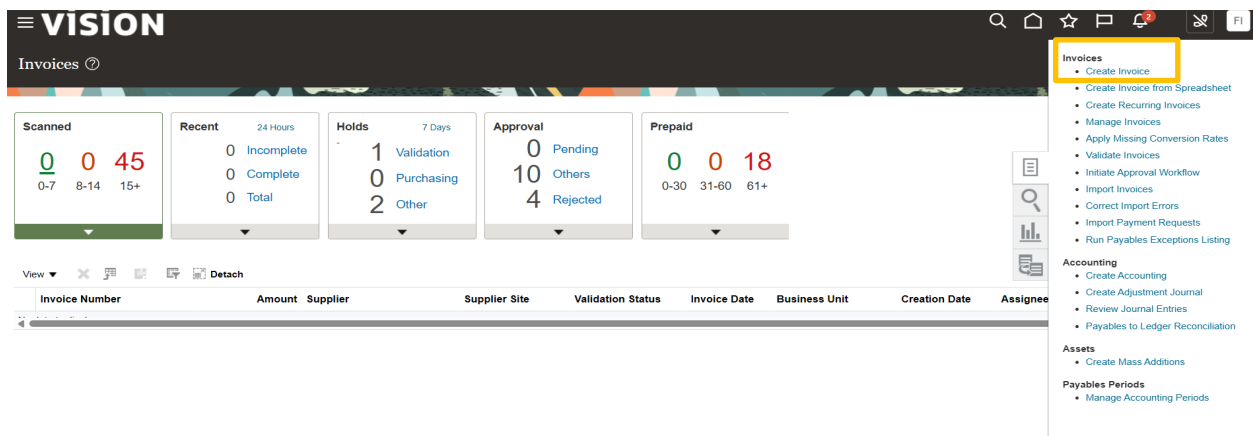

Notes: Multi-Period Accounting (MPA) in Oracle Fusion Payables

What is Multi-Period Accounting (MPA)?

Multi-Period Accounting allows deferral of expense or revenue recognition over multiple periods for invoices like rent, insurance, maintenance, and subscriptions.

How to create Multi Period Accounting Invoice?

Navigation: Home → Payables → Invoices → Tasks → **Create Invoice**

- Enter all the required details like BU, Supplier details, etc at Invoice Header level and Line Level like shown below.

* Number	* Type	* Amount	Distribution Set	Distribution Combination	Distribution Combination Description	Accounting Date	Prorate Across All Item Lines	Description	Refer
1	Item	5,000.00		410.10.63560.000.000.000	India Entity 01. LoB 1 US1.Multiple Ri...	6/1/25		Multi Period Invoice - Insurance - quarter :	

- Go to the Multiperiod Accounting tab and enter the start period and End period.

- MPA **only applies** to accounted invoices with **start and end dates** on the distribution lines.
 - If not run, expenses may get recorded entirely in a single period—**causing revenue/expense mismatches**.
 - MPA **does not apply to unaccounted invoices**—ensure **Create Accounting** is run first.
-

 Example:

Scenario	Example
Invoice for rent	₹60,000 rent invoice for 3 months (Jan–Mar)
Distribution Dates Start: 01-Jan; End: 31-Mar	
MPA Output	₹20,000 expense per month (Jan, Feb, Mar) journalized across those months

 Best Practice:

Always run **MPA after initial Create Accounting** and before finalizing period-end accounting to ensure proper accrual or deferral.
