

Clearing 0 amount expense report (Payment requests)

I. Introduction

The expenses paid with the Company credit card will generate 0 amount payment requests in Payables. These payments request have a status of “Unpaid” in Payables

The screenshot shows the 'Manage Invoices' interface. The main area displays 'Invoice Details' for invoice ER00003282828. Key fields include: Invoice Date (01/03/24), Invoice Type (Payment request), Supplier or Party (Liy Cronin), Employee Number (282933), Invoice Amount (0.00 GBP), Applied Payments (0.00 GBP), and Unpaid Amount (0.00 GBP). A 'Summary' pop-up window is open, showing 'Status' (Validated), 'Accounting' (Accounted), 'Payments' (Unpaid), and 'Due Date' (05/04/24). The 'Holds' section shows 'Installments' (0), 'Line Variance' (0), 'Distribution Variance' (0), 'Manual Holds' (0), 'System Holds' (0), and 'Supplier Site' (No).

In order to clear it and not having a growing list of Unpaid transactions in Payables and Payables reporting, here is what we can put in place to clear it:

- Create a schedule Payment process request with a specific payment template for 0 amount transactions
- Schedule the Payment process request to run automatically at a frequency to determine (daily, monthly)
- Add a rule in BPM for these 0 amount payments to skip the payment approval process

II. Setup

1. use UK BACS payment method since this is the defaulting one and we can't update it for employees unless updating each and every payment request instalment. Not user friendly and time consuming

The screenshot shows the 'Manage Installments' interface. The 'Invoice Header' section displays: Identifying PO, Business Unit (Investec UK Business Unit), Party (Liy Cronin), Employee Number (282933), Supplier Site, * Legal Entity (Investec Bank plc), and Invoice Group. The 'Manage Installments' pop-up window shows fields for: Unique Remittance Identifier, Unique Remittance Identifier Check Digit, Bank Charge Bearer, Settlement Priority, Delivery Channel, Pay Group, Payment Reason, Payment Reason Comments, Pay alone (checkbox), and Discountable Amount (0.00). Below these fields is a table of installments:

Installment	Due Date	Gross Amount	Unpaid Amount	Payment Priority	Payment Method	Bank Account	Details
1	05/04/24	0.00	0.00	99	Investec UK BACS	80314560	
Totals		0.00	0.00				

2. Allow 0 payment on the BACS bank account setup
