

Receivables Setups (AR)

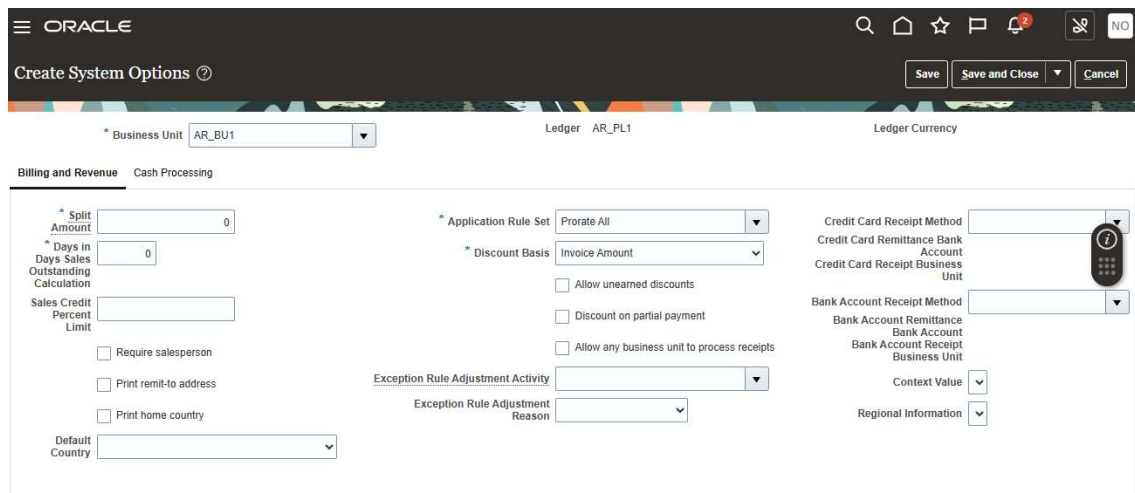

1. Manage Receivables system options

Navigator

→ Setup and Maintenance

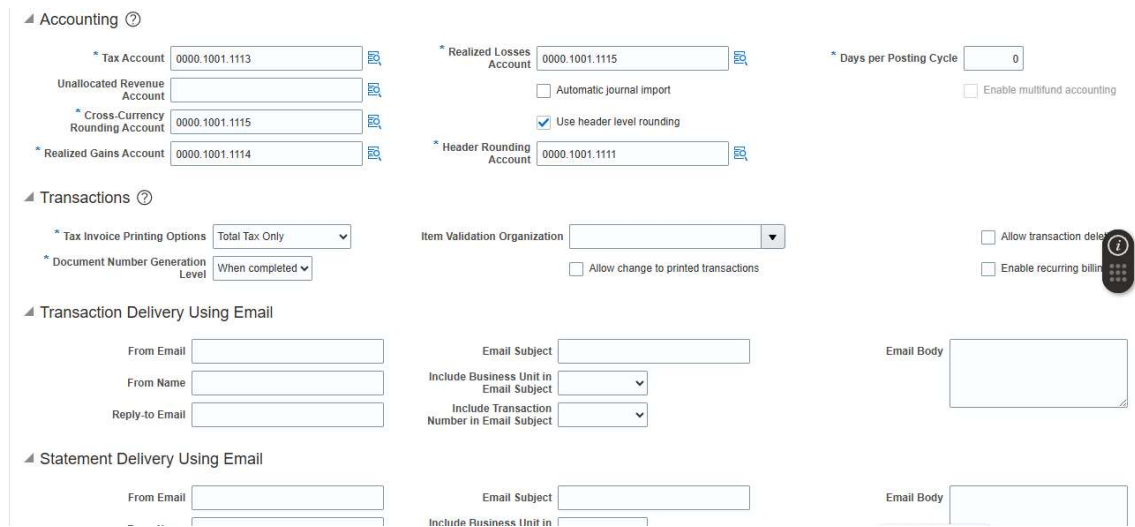

→ Manage Receivables system options

→ Enter mandatory fields like Business unit, Application rule set etc.,

The screenshot shows the 'Create System Options' screen in Oracle. The top navigation bar includes the Oracle logo and various icons. The main header displays 'Create System Options' with a help icon. Below the header, there are tabs for 'Billing and Revenue' and 'Cash Processing'. The 'Billing and Revenue' tab is active. The form contains several sections: 'Business Unit' (AR_BU1), 'Ledger' (AR_PL1), and 'Ledger Currency'. The 'Split Amount' is set to 0. The 'Days in Days Sales Outstanding Calculation' is set to 0. The 'Sales Credit Percent Limit' is set to 0. There are checkboxes for 'Require salesperson', 'Print remit-to address', and 'Print home country'. The 'Default Country' is set to a dropdown menu. The 'Application Rule Set' is set to 'Prorate All'. The 'Discount Basis' is set to 'Invoice Amount'. There are checkboxes for 'Allow unearned discounts', 'Discount on partial payment', and 'Allow any business unit to process receipts'. The 'Exception Rule Adjustment Activity' is set to a dropdown menu. The 'Exception Rule Adjustment Reason' is set to a dropdown menu. The 'Credit Card Receipt Method' is set to a dropdown menu. The 'Credit Card Remittance Bank Account' is set to a dropdown menu. The 'Credit Card Receipt Business Unit' is set to a dropdown menu. The 'Bank Account Receipt Method' is set to a dropdown menu. The 'Bank Account Remittance Bank Account' is set to a dropdown menu. The 'Bank Account Receipt Business Unit' is set to a dropdown menu. The 'Context Value' is set to a dropdown menu. The 'Regional Information' is set to a dropdown menu.

→ Enter code combinations—Tax Account, Cross-Currency, Realized Gains Account, Realized Losses Account, Header Rounding Account.

The screenshot shows the 'Accounting' section of the 'Create System Options' screen. It contains several sections: 'Tax Account' (0000.1001.1113), 'Unallocated Revenue Account' (0000.1001.1115), 'Cross-Currency Rounding Account' (0000.1001.1115), 'Realized Gains Account' (0000.1001.1114), 'Realized Losses Account' (0000.1001.1115), 'Header Rounding Account' (0000.1001.1111), 'Days per Posting Cycle' (0), 'Automatic journal import' (unchecked), 'Use header level rounding' (checked), 'Enable multifund accounting' (unchecked), 'Tax Invoice Printing Options' (Total Tax Only), 'Document Number Generation Level' (When completed), 'Item Validation Organization' (dropdown), 'Allow transaction deletion' (unchecked), 'Enable recurring billing' (unchecked), 'Transaction Delivery Using Email' (From Email, From Name, Reply-to Email, Email Subject, Include Business Unit in Email Subject, Include Transaction Number in Email Subject, Email Body), and 'Statement Delivery Using Email' (From Email, Email Subject, Include Business Unit in, Email Body).
