Understanding the Difference Between GL Budget and Budgetary Control	1
Budget From General Ledger Module	2
Budgetary Control in Oracle Fusion Cloud	12

Budgetary Control: The budget data in the Budgetary control is used to control your spending and to track and report variances (based on Expense Control Budgets defined in the Budgetary Control).

General Ledger Budget A **general ledger budget** is a plan for the revenue and expense **accounts** in your **general ledger**, typically used to maintain **control** over costs. ... You use the **General Ledger Budgeting** form to enter **general ledger budgets**. You develop **budgets** at the beginning of each fiscal year and monitor them on a regular basis If you haven't implemented Budgetary Control and if you want to report on budget vs actuals, then you can maintain budgets directly within the GL itself. Please note that the GL is not a budgeting module and there's no budgetary control based on the GL budget.

Budget From General Ledger Module

General Ledger gives you a variety of tools to create, maintain, and track your budgets, including the ability to upload budget amounts from your spreadsheet software.

First, we will set up the General Ledger budget.

1- First, click on Setup and Maintenance, Then, click on the Task panel, and select Search.

The screenshot displays the Oracle Loyalty Program interface. At the top, the Oracle logo is visible. Below it, there are tabs for 'Program Overview', 'Member Insights', and 'Transaction Analysis'. The main content area shows the 'Program Points Balance Sheet' for the 'Supremo Rewards' program. This includes a table with columns for Program, Primary Point Type, Promotion, Accrued Points, Available Points, Redeemed Points, and Expired Points. To the right of the table is a bar chart comparing 'Admin: Points per Dollar' and 'Enrollment'. A 'Settings and Actions' menu is open on the right side, with 'Setup and Maintenance' highlighted under the 'Administration' section.

Program	Primary Point Type	Promotion	Accrued Points	Available Points	Redeemed Points	Expired Points
Supremo Rewards	Beans	Admin: Points per Dollar	7,740,768	50	5,000	7,735,718
Supremo Rewards	Beans	Enrollment Reward	2,400	0	0	2,400
Supremo Rewards	Beans	Referral Bonus + free Coffee	600	0	200	400
Supremo Rewards	Beans	Tier Accelerator Bonus	698,203	0	0	698,203

2- Next, search for *Manage Value Set*, click on it, and in the Description field, enter *Scenario*."

4- Then Click Save and Close.

- 5- Navigate to Tools, Scheduled Processes and run the process named **Create Scenario Dimension Member**.

The screenshot shows the Oracle B2B Cloud user interface. At the top, a greeting says "Good afternoon, suhaila" followed by a user icon and the name "ed". Below this is a navigation bar with tabs: "Academic Tools", "Permitting and Licensing", "My Enterprise", "Tools", "Configuration", and "P.". The "Tools" tab is selected. Under the "Tools" tab, there are two sections: "QUICK ACTIONS" and "APPS". The "APPS" section contains a grid of application tiles. The "Scheduled Processes" tile, which features a calendar icon, is highlighted with a red rectangular box. Below the main interface, a "Schedule New Process" dialog box is open. It has a "Type" section with "Job" selected (indicated by a blue dot) and "Job Set" as an option. The "Name" field contains the text "Create Scenario Dimension Members". Below the name field, the "Description" reads: "Creates and updates scenario dimension members for balances cubes." At the bottom right of the dialog are "OK" and "Cancel" buttons. In the background, the "Overview" page is visible, showing a search bar, a "Search Results" section, and a table with columns "Name", "Submission Time", and "Submission No".

Then, click *OK*, and then click *Submit*.

- 6- From the Home page, navigate to *Journals > General Accounting Dashboard*.
- 7- Click on Task Panel, then go to *Inquire and Analyze Balances* to search for the scenarios.
You can search for the scenario you have just added.

8- Then, from *General Accounting*, open the *General Accounting Dashboard*. Click on the Task panel, and select *Create Budget in Spreadsheet*.

- 9- An Excel sheet will be downloaded. Open the sheet, enter your username and password, and then click *Sign In*.

10- Enter the required information, such as the budget name, ledger, period, code combination, and budget amount.

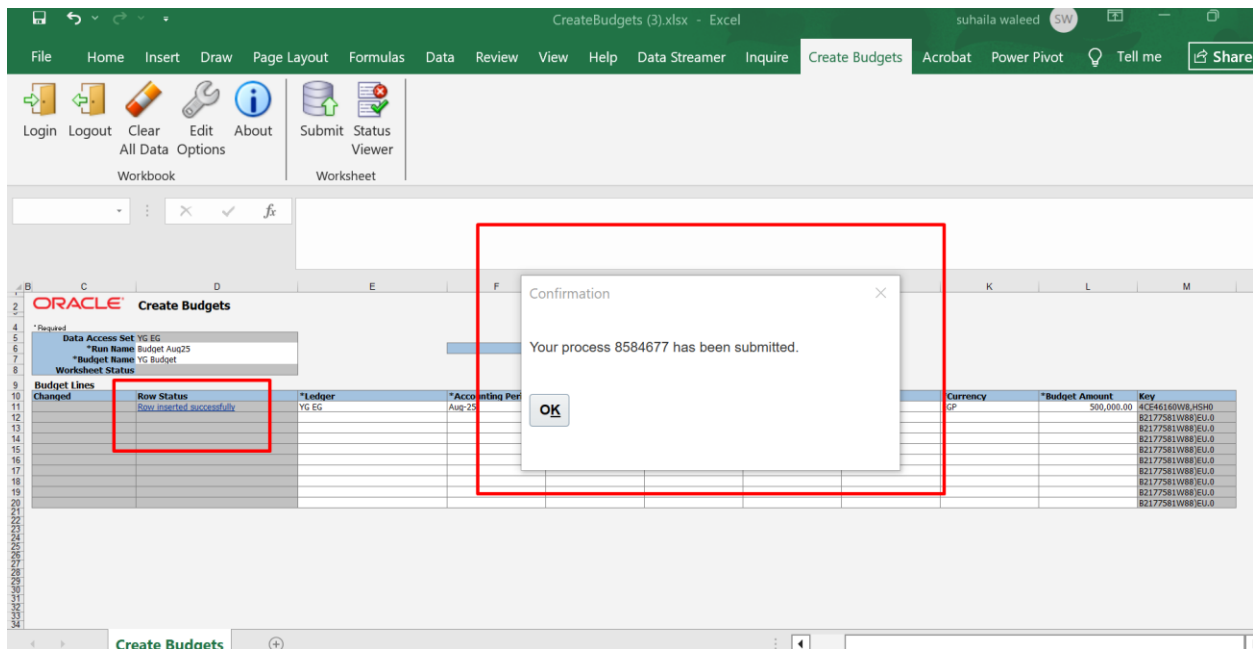

The screenshot shows the Oracle Create Budgets worksheet. The following fields are highlighted with red boxes:

- Required Fields:** Data Access Set (YG EG), Run Name (Budget Aug25), Budget Name (YG Budget), and Worksheet Status.
- Total:** 500,000.00
- Budget Lines Table:**

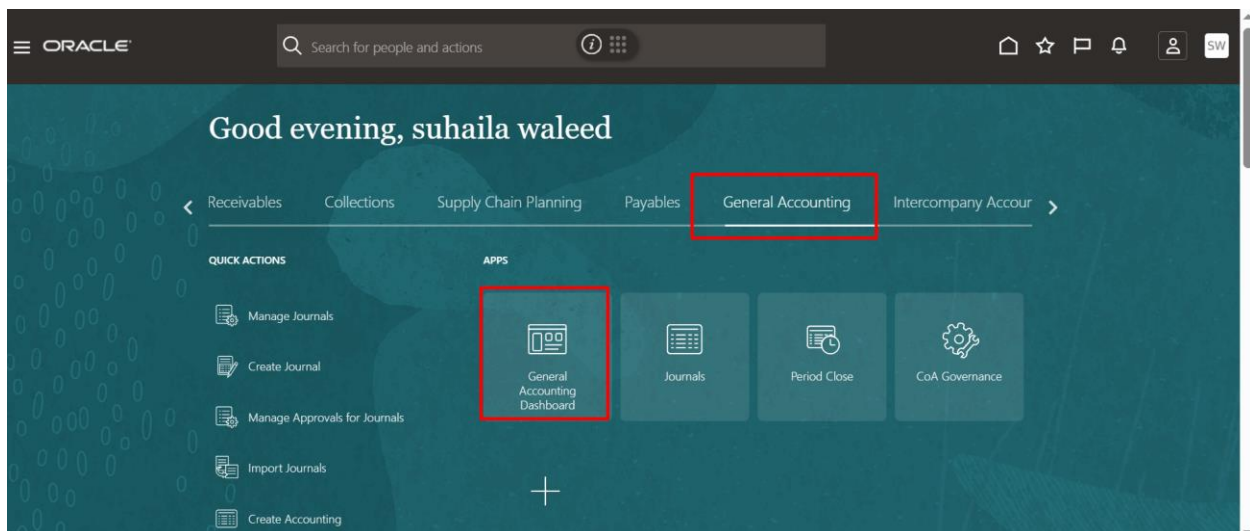

Budget Lines	Row Status	*Ledger	*Accounting Period	*CO[...]	*DEPT[...]	*ACCT[...]	*IC[...]	*Currency	*Budget Amount	Key
Changed		YG EG	Aug-25	10	00	53332	10	EGP	500,000.00	82177581W88 EU.0
										82177581W88 EU.0
										82177581W88 EU.0
										82177581W88 EU.0
										82177581W88 EU.0
										82177581W88 EU.0

										82177581W88 EU.0
										82177581W88 EU.0
										82177581W88 EU.0

Then click Submit to upload the budget.

The screenshot shows the Oracle Create Budgets worksheet with the Submit button highlighted with a red box. The Submit button is located in the top right corner of the worksheet, next to the Status and Viewer buttons.

- 11- From General Accounting, go to the General Accounting Dashboard. Under the Account Monitor tab, click on the Account Group.
- 12- Enter the required fields, then click Save and Close. Select the current period, and the comparison between the budget and the actual amounts will be displayed.

Now we will gonna talk about about budget from budgetary control

Budgetary Control in Oracle Fusion Cloud

Overview

Budgetary Control in Oracle ERP Cloud is a feature that validates transactions against predefined budgets to prevent overspending. It operates in real time, ensuring financial discipline and providing immediate visibility into available funds.

Key Components

- **Control Budgets:** Configurable to track:
 - **Procure-to-Pay Control Budgets** for expense tracking.
 - **Cash Control Budgets** for monitoring cash payments.
- Each control budget maintains:
 - **Budget Balances**
 - **Funds Reservation Balances**
 - **Funds Available Balances**
- Customizable settings include control budget filters, date validations, and default date rules.

Reporting and Monitoring

Oracle provides a set of predefined reports for reviewing and analyzing budget performance:

- **Budget Import Results Report** – summarizes import outcomes and highlights errors.
- **Budgetary Control Results Reports** – shows validation results by transaction or batch.
- **Exception Analysis Report** – identifies and categorizes failed fund reservations.
- **Funds Analysis Reports** – including trends, available funds, and account activity.
- **Real-Time Transaction Report** – tracks the immediate effect of transactions on budget balances.

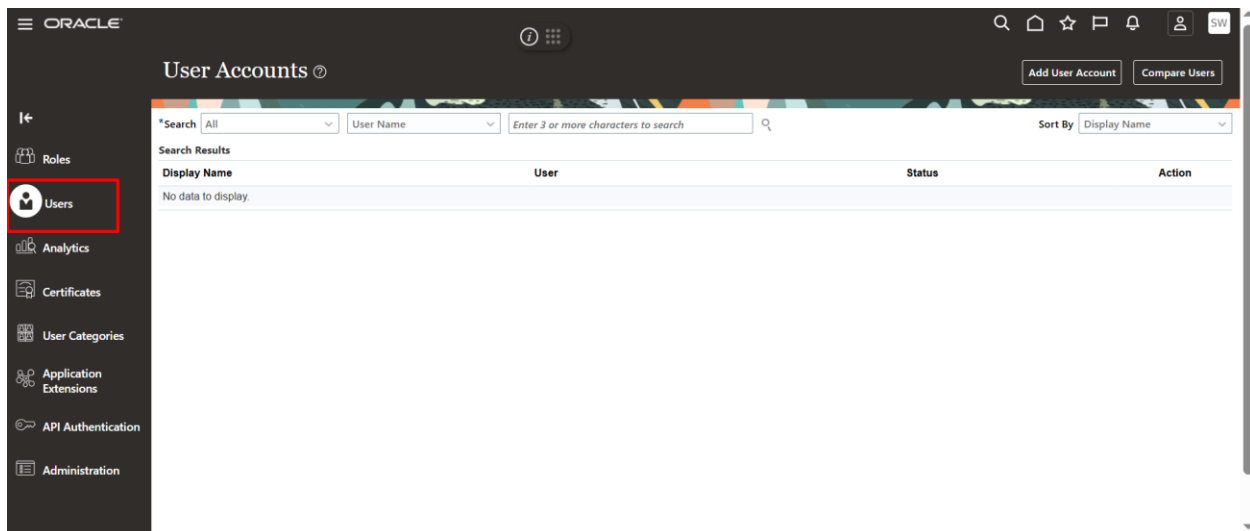

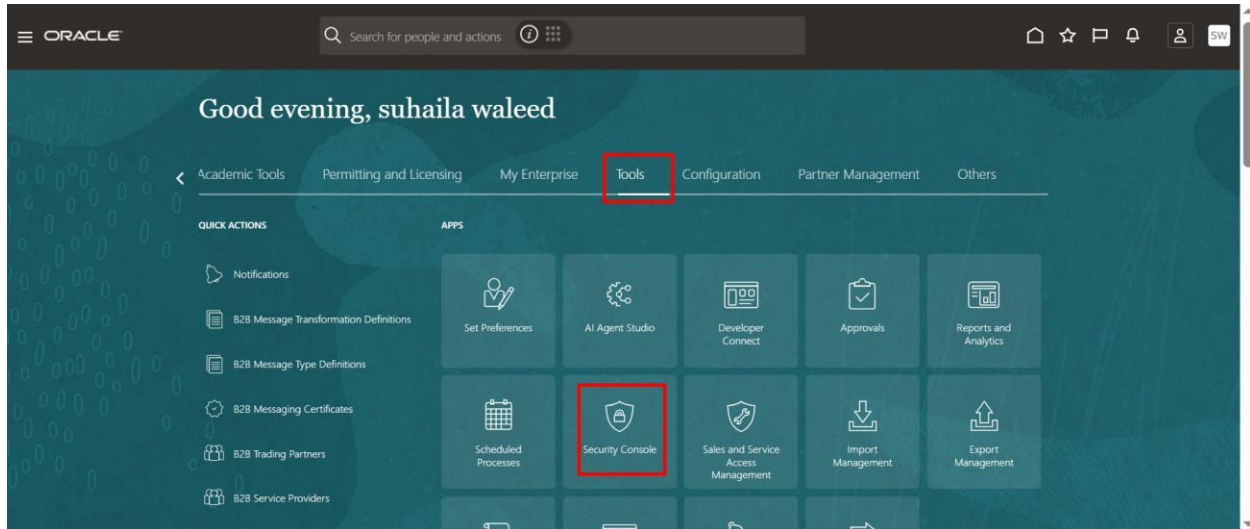

Benefits

- Prevents overspending by enforcing budget rules at the transaction level.
- Enhances visibility into available funds.
- Supports multiple data sources for flexible budget management.
- Provides comprehensive reporting for informed decision-making.

In this section, we will configure a budget within the Budgetary Control module. The following steps outline the setup process.

Step 1: Add the Budget Manager Role

1. Navigate to **Tools > Security Console > Users** tab.
2. Search for your user account and click **Edit**.
3. Click **Add Role**.
4. In the search field, type **Budget Manager**.
5. Select the role, click **Apply**, then **OK**.
6. Click **Save and Close**.
7. Click **Done** to complete the process.

Step 3: Enable Budget

1. Navigate to **Setup and Maintenance > Budgetary Control and Encumbrance Accounting > Manage Budgetary Control**.
2. Search for your budget.
3. Click **Enable Budget** at:
 - **Ledger Level**
 - **Business Unit Level**
4. Enter the **Encumbrance Account**.
5. Save your changes.

An encumbrance is a set amount of money committed to a payment for good or services ahead of the actual purchase. When a requisition is placed, an encumbrance is automatically created per each line of the transaction. This commits the funds to be used for the specific purpose designated on the requisition. As items are received against a requisition, we disencumber the amount against the encumbrance balance. Items can be partially or fully received and directly impact the total encumbrance balance. A Budget to Actual report can be run to showcase the commits or encumbrances balance. Encumbrance information can also be shown on dashboard portlets.

The screenshot shows the 'Manage Budgetary Control' page. The left sidebar lists various accounting and reporting tasks, with 'Budgetary Control and Encumbrance Accounting' selected. The main panel displays the 'Manage Budgetary Control' task, which includes sub-tasks like 'Manage Control Budgets', 'Manage Control Budget Data Access for Users', and 'Manage Encumbrance Accounting'. The 'Manage Encumbrance Accounting' sub-task is highlighted.

PRD_07-01	1	7	3	7/1/25	7/31/25	2025

Step 5: Manage Control Budget

1. Navigate to **Setup and Maintenance > Budgetary Control and Encumbrance Accounting > Manage Control Budgets**.
2. Enter the following details:
 - **Budget Name**
 - **Calendar**
 - **From Period and To Period**
 - **Source:** Select **Other**
 - **Control Level:**
 - **Absolute** – Stops transaction processing if there are insufficient funds after tolerance.
 - **Advisory** – Provides a warning if there are insufficient funds after tolerance.
 - **Track** – No warnings; used for reporting funds consumption without affecting transactions.
 - **None** – No budgetary control validation; often used with supplemental rules.
3. Define your **Budget Segments**:
 - Example: Budget by **Account** and **Cost Center**.
 - Segments determine which parts of your Chart of Accounts are subject to budgetary control, allowing you to set spending limits for specific areas.
4. **Add Supplemental Rules**:
 - Supplemental rules create exceptions to the control level and tolerance settings defined in the control budget header.
 - Example: For **Balance Sheet accounts**, set the rule to **None** so that the budget does not apply to these accounts.
5. Click **Save**.
6. From the **Actions** menu, click **Prepare for Use**.

Step 8: Create Budget from Spreadsheet (Entering Details)

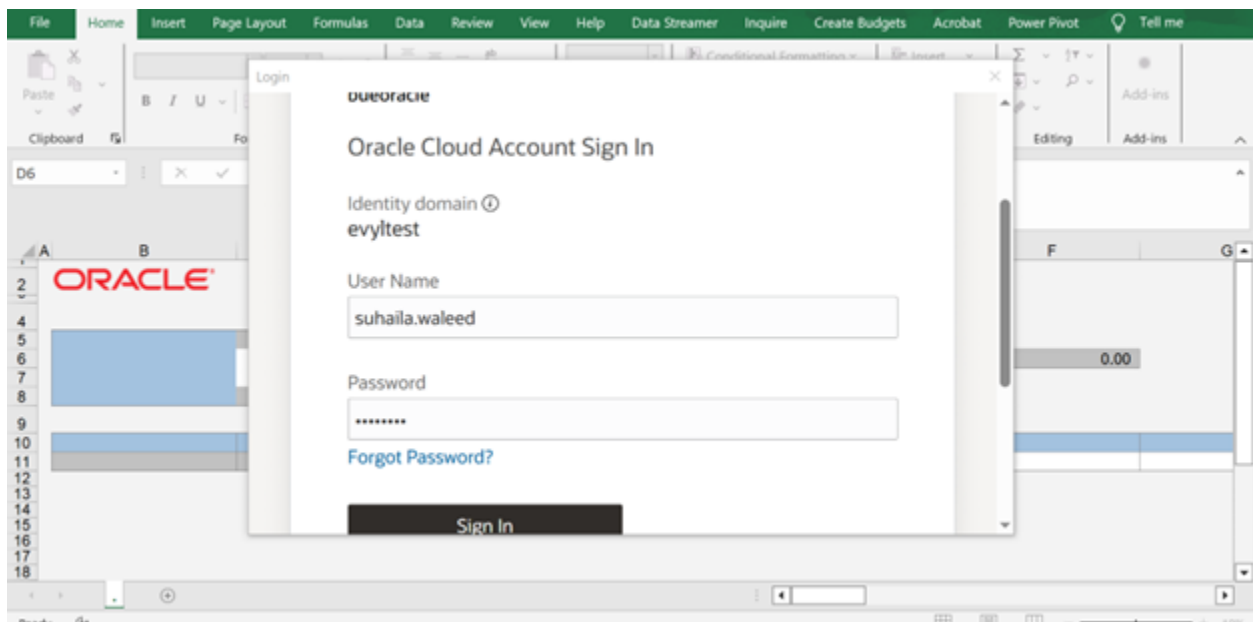

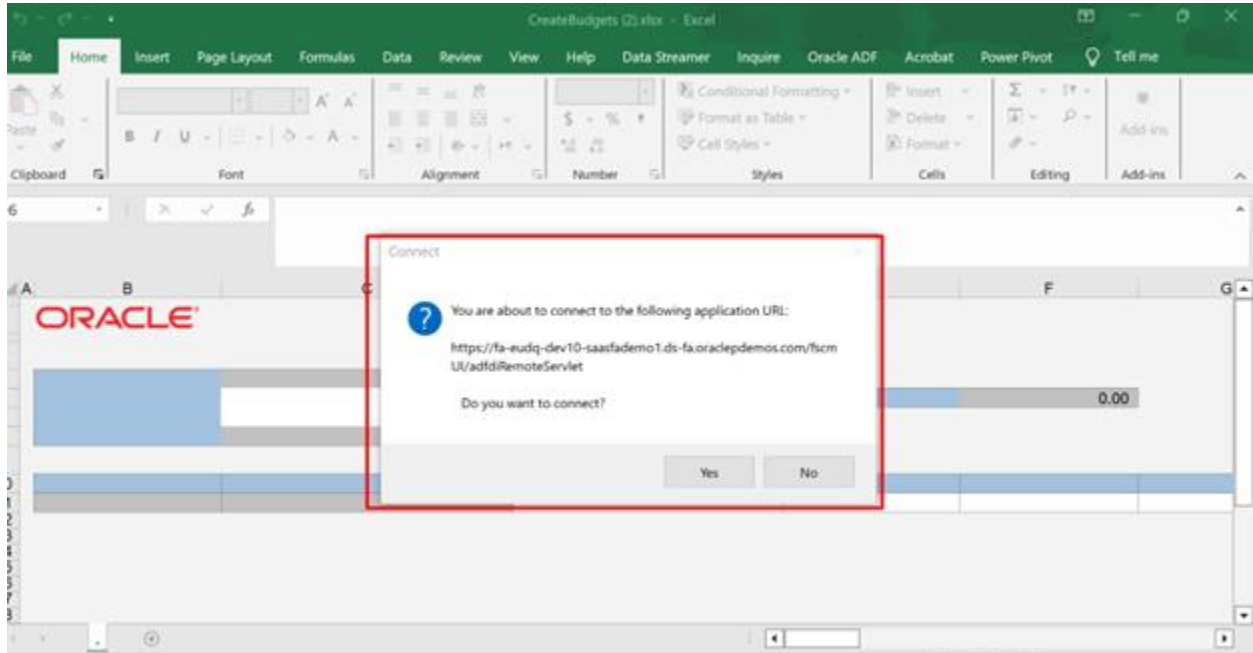

1. In the **Enter Budgets in Spreadsheet** window, fill in the fields as follows:
 - **Budget Usage:** *Budgetary Control validation*
 - **Budget Entry Classification:** *Initial budget , Initial budget (if you specify budget entry classification as initial budget) Budget adjustment (if you specify budget entry classification as budget revision)*
 - **Control Budget:** *YG budget 2025*
 - **Start Period:** *PRD_01-01*
 - **End Period:** *PRD_12-01*
 - **Enter Budget Amounts As:** *New budget.*
2. Click **Create Spreadsheet** to download the Excel file.

The screenshot displays the Oracle Budgetary Control Dashboard. A modal window titled "Enter Budgets in Spreadsheet" is open, containing the following fields and options:

- Budget Usage:** Budgetary Control validation
- Budget Entry Classification:** Initial budget
- Control Budget:** YG budget 2025
- Start Period:** PRD_01-01
- End Period:** PRD_12-01
- Budget Entry Name:** 2025 Initial 11-08-25 20 15 17 PM
- Budget Scenario:** Not applicable for Budgetary Control validation usage
- ☐ Retrieve current budgets
- Enter Budget Amounts As:** New budget or replacement of current budget

At the bottom of the dialog, there are two buttons: "Create Spreadsheet" and "Cancel". The "Create Spreadsheet" button is highlighted with a red box. The background dashboard shows a "Budget Monitor" section with a "Detach" button and a "Budget Account Group" set to "None". A sidebar on the right lists "Budgets" and "Period Close" actions.

- An Excel sheet will be downloaded. Open the sheet, enter your username and password, and then click *Sign In*.

- Enter the required information, such as code combination, and budget amount.

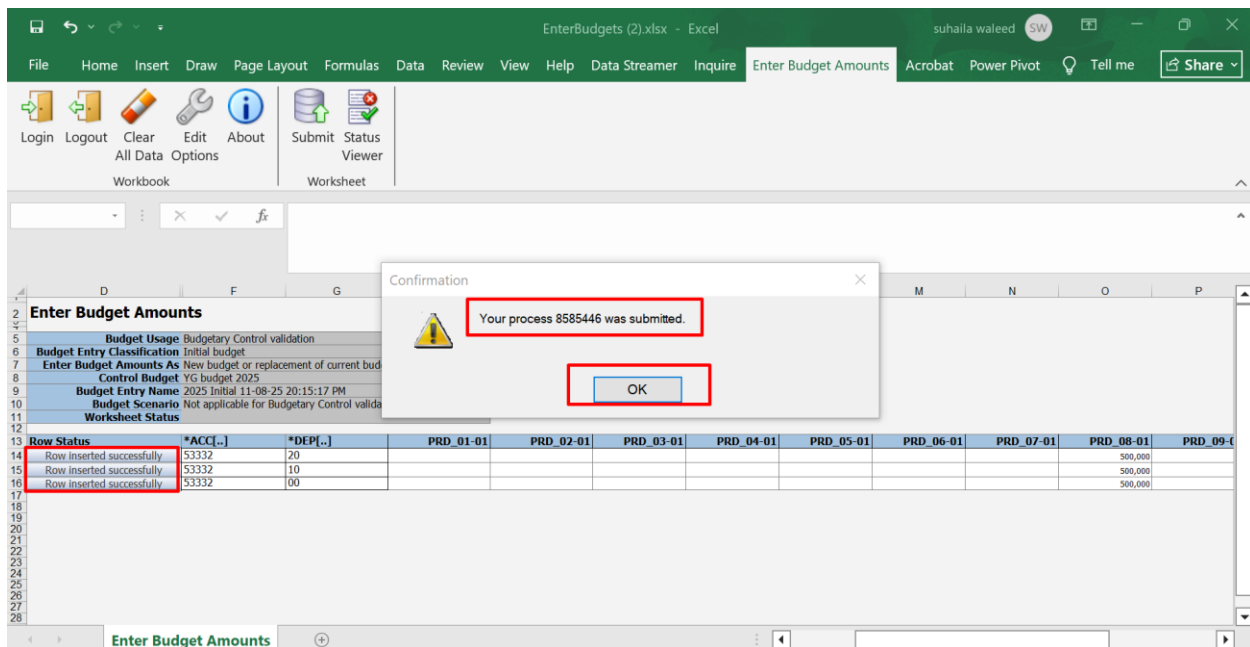

Enter Budget Amounts

Row Status	*ACC[...]	*DEP[...]	PRD_01-01	PRD_02-01	PRD_03-01	PRD_04-01	PRD_05-01	PRD_06-01	PRD_07-01	PRD_08-01	PRD_09-01
53332	20									500,000	
53332	10									500,000	
53332	00									500,000	

- Then click Submit to upload the budget.

Enter Budget Amounts
