

An illustration on the left side of the slide shows four stylized human figures (two men and two women) interacting with large, abstract shapes. The shapes are filled with various patterns: orange with a wavy line pattern, light blue with a concentric circle pattern, yellow with a radial dot pattern, and green with a wavy line pattern. The figures are positioned around these shapes, with their arms outstretched as if they are presenting or interacting with them. The background is a solid dark teal color.

Welcome

Thank you for joining this Oracle Cloud Customer Connect live event.

This webcast will start in a few minutes.

Live Q&A

There will be a live Question and Answer (Q&A) session following the presentation. If you have any questions, you can ask them using the Q&A functionality in Zoom. Questions will be answered in the order received.

The event replay and the slides will be available within one business day on Oracle Cloud Customer Connect.

Capitalize Fixed Assets Upon Purchase Receipt

Rajkumar Chockalingam - Senior Principal Software Engineer

Santosh Vijayaraghavan - Principal Software Engineer

Anshu Malhotra — Senior Principal Software Engineer

27-Feb-2025

Safe harbor statement

The following is intended to outline our general product direction. It is intended for information purposes only, and may not be incorporated into any contract. It is not a commitment to deliver any material, code, or functionality, and should not be relied upon in making purchasing decisions. The development, release, timing, and pricing of any features or functionality described for Oracle's products may change and remains at the sole discretion of Oracle Corporation.

Agenda

- Overview
- Setups
- Expense & Inventory Purchase Flow
- Demo
- Q&A

Capitalizing Fixed Assets Upon Purchase Receipts - Overview

- Create an installed base asset and capitalize it as a fixed asset for **non-project** purchases with a receipt destination type of both Inventory and Expense.
- This capability allows you to capitalize your asset as soon as it's received.
- A relationship between the installed base asset and the associated fixed asset is automatically established without any manual intervention

Setup – Enable features

Ensure Following Features are enabled

- Capitalize Fixed Assets Upon Purchase Receipt to Expense Destination
- Capitalize Fixed Assets upon Purchase Receipt to Inventory Destination

Offerings -> Manufacturing and Supply Chain Materials Management -> Opt-in Features -> Maintenance Management

Edit Features: Maintenance Management ?					
View ▾ Detach					
	Feature	Always Enabled From	Opt In Task	Enable	View History
	Manage Work Order Picking Document Output Preferences			☒	
	Use Smart Search to Search For and View Assets in New Assets UI			☒	
	Capitalize Fixed Assets Upon Purchase Receipt to Expense Destination			☒	
	Capitalize Fixed Assets upon Purchase Receipt to Inventory Destination			☒	
	Manage Supplier Warranty Claim Labor Rates			☒	
	Manage Supplier Warranty Standard Repair Times			☒	
	Assign Assets for Repair to a Maintenance Work Order and Return to Inventory After Repair			☒	
	Synchronize Changes Between Installed Base and Fixed Assets for Asset Terminations			☒	

Setup – Cut Off Date

Cut off date is set via the opt-in task from these two features

When the opt-in task is enabled ESS request *“Capture cutoff Date for Receipt Based Fixed Asset Creation”* gets launched and it sets the cut off date.

Following sql can be used to confirm the cutoff date

```
SELECT FA_AT_RECEIPT_CUT_OFF_DATE,  
       FA_AT_RECEIPT_INV_CUT_OFF_DATE  
FROM   fusion.CSE_SYSTEM_OPTIONS
```

Expense / Inventory Destination Purchase Flow

Expense Destination Purchase Flow

1. Create and approve purchase order for asset item with destination type Expense and accrue at receipt
2. Receive and Deliver the asset to Expense Location
3. Run following processes to cost and account above receiving transactions
 - a) Transfer Transactions from Receiving to Costing
 - b) Transfer Costs to Cost Management
 - c) Create receipt Accounting Distribution
 - d) Create Accounting
4. Review Receipt Accounting Distributions and ensure the transactions are final accounted
5. Run “Transfer Receipts to Mass Additions” to interface records to mass additions table
6. Manage added ASSET records as required.
7. Run “Post Mass Additions” scheduled job to create a fixed asset
8. Run “Connect and Synchronize Fixed Asset to Operational Asset” to connect the Fixed Asset created with Install Base Asset

Inventory Destination Purchase Flow

1. Create and approve purchase order for asset item with destination type Inventory and accrue at receipt
2. Receive and Deliver the asset to Inventory Location
3. Run following processes to cost and account above receiving transactions
 - a) Transfer Transactions from Receiving to Costing
 - b) Transfer Costs to Cost Management
 - c) Create receipt Accounting Distribution
 - d) Create Accounting for Receipt Accounting
4. Run following processes to cost and account above receiving transactions
 - a) Transfer Transactions from Inventory to Costing
 - b) Create Cost Accounting Distribution
 - c) Create Accounting for Cost Accounting
5. Review Receipt Accounting Distributions and Cost Accounting distributions and ensure the transactions are final accounted
6. Run “Transfer Receipts to Mass Additions” to interface records to mass additions table
7. Manage added ASSET records as required.
8. Run “Post Mass Additions” scheduled job to create a fixed asset
9. Run “Connect and Synchronize Fixed Asset to Operational Asset” to connect the Fixed Asset created with Install Base Asset
