

Budget Control

Step-by-Step System Guide

Created by Omar Ayman

Introduction

- Oracle Fusion Budgetary Control helps organizations manage and control spending by validating transactions against available budgets. Within the procurement cycle, budget checks are performed during Purchase Requisition (PR), Purchase Order (PO), and Invoice processing to ensure that spending remains within approved budget limits.
- This document provides an overview of the Budgetary Control setup, budget loading, verification process, and budget consumption throughout the procurement lifecycle.

Overview Setup

- Create Budget Calendar
- Enable Budgetary Control
- Create Budget and Prepare It for Use
- Assign Budget Roles and Data Access for Users
- Open Budget Period

Enter and Verify Budgetary Control Values

- Enter Budget in Spreadsheet (ADFDI Excel Add-in Required)
- Review Budget Amount
- Verify Budget Control

Omar Ayman

ORACLE®

The screenshot displays the Oracle VISION Budgetary Control Dashboard. The top navigation bar includes the 'VISION' logo, a search bar, and user icons. The main header area greets the user with 'Good morning, omar ayman'. Below this, a horizontal navigation bar contains several tabs: 'Intercompany Accounting', 'Budgetary Control' (highlighted with a red box), 'Fixed Assets', 'Academics', 'Academic Tools', and 'Permitting ar'. Under the 'Budgetary Control' tab, there are 'QUICK ACTIONS' and 'APPS' sections. The 'QUICK ACTIONS' section lists 'Review Budgetary Control Balances' and 'Review Budgetary Control Transactions'. The 'APPS' section features a 'Budgetary Control' app icon. A sidebar menu on the right lists various budgeting tasks under the heading 'Budgets', including 'Manage Control Budgets', 'Enter Budgets in Spreadsheet', 'Review Budget Entries', 'Review Budgetary Control Balances', and 'Review Budgetary Control Transaction'. A red box highlights the 'Period Close' section within this sidebar, which includes the option 'Budget Period Statuses'.
